It's Fun to Pray!

Prayer Action Calendar

This calendar can be used in the month of Ramadhan, or during any other month, for children to focus on the accuracy of their prayer poses.

This calendar requires the child to focus on perfecting one action per week, as much as they can, no matter how many prayers they participate in. It can be used on its own, or in conjunction with a typical prayer tracker which records how many of the daily prayers have been done.

Once the action has been perfected, the calendar can be used again for dhikr focus, etc. as the child grows.
